## ARMISTICE SHOULD NOW BE DECLARED

### Engagement Between Armies Would Upset Plans.

MIGHT BREAK NEGOTIATIONS

President Roosevelt Pays No Attention To His Critics in Russia—Portland Wants Conference To Be Held. There Other News.

Washington, June 20.—While the progress of the preliminary negotiations for peace between the Far Eastern belligerents is necessarily slow, and at this stage of the proceedings it is known that President Roosevelt hopes they practically may be concluded before he shall go to Oyster Bay for the summer. His desire to facilitate in every way possible, the negotiations induced him to reconsider his original plan to go to Oyster Bay this week.

After his visit to Worcester and Williamstown, Mass., where he will go to attend the commencement exercises of Clark university and Williams college, he will return to Washington, arriving here next Friday morning. It is expected that if nothing unforeseen shall have occurred in the meantime, some definite announcement of the status of the negotiations may be made soon after his return.

There is a possibility, even, that the selection of the plenipotentiaries of both Russia and Japan may be announced before the president leaves tomorrow night for Massachusetts.

A final decision as to the seat of the conference having been reached by the president in common with the political world is awaiting action of the belligerent nations as to their peace envoys. With that part of the program the president naturally has nothing to do. When the selections have been made the names of the envoys of the respective governments will be communicated to the president. By him they will be communicated to the governments in interest and formally announced to the world.

It is the hope here that the arrangements for the conference may proceed with such facility as to avert a general engagement in Manchuria between the forces of Generals Linevitch and Oyama. The precipitatio of a great battle at the present stage of the peace negotiations would be regarded here as a most unfortunate error of judgment—an errr which might imperil seriusly the negotiations for the conference. Indeed, it is believed that in some quarters, that whatever might be the result of such a conflict, it would arouse such bitterness that the negotiations the status of which is now so favorable would collapse.

It can be said President Rosevelt is giving no heed to irritating personal references to him which have appeared in a part of the Russian press. His conduct of the peace negotiations thus far has been as nearly directly as possible with the emperors of the belligerent powers and the arrangements concluded represent their personal views as well as his own.

The reference to the president by an important St. Petersburg newspaper as a "broker" is regarded here as most unhappy, although it is known in Washington that it does not reflect the sentiments of the St. Petersburg government. Such comments serveve, however, to accentuate the desire of the president and of the powers generally to avert, if possible, another serious engagement on the Manchurian battle-[illegible] lest the conciliatory efforts here-[illegible] made may be rendered fruit-[illegible]ugh the utterances of the Rus-[illegible], backed, as they may be, [illegible] power sof the war party in [illegible].

**[illegible]and Wants Conference.**

[illegible], Ore., June 20.—Portland [illegible]ed for the privilege of hold-[illegible]eetings of the plenipotentia-[illegible]ssia and Japan in this city. [illegible]ages to President Governor [illegible] Chamberlain, of Oregon, and Mayor George H. Williams, of Portland, called the president's attention to the fact that Portland is situated half way between Russia and Japan.

**Russians Repulse Japanese.**

Headquarters of the Russian Army, Godzyandani, Manchuria, Sunday, June 18.—The Russian cavalry have re-taken the town of Liaoyangwopeng.

The Japanese occupied the village of Sumiencheng on the main road to Changtufu and Mamakai in the morning of June 16, but they did not succeed in crossing the river. At 3 in the afternoon the Russians recaptured Sumiencheng, three squadrons of Japanese retiring in a southwesterly direction.

**Must Leave Port Arthur.**

Che Foo, June 20.—American and European firms, still in Port Arthur, have been notified by the Japanese authorities to depart and to remove their merchandise. Many of the firms are arranging to charter steamers for that purpose.

### SUFFER FROM INTENSE HEAT.

**Inhabitants of East Side New York Sweltering These Hot Days.**

New York, June 20.—Showers and a change in the wind early today greatly reduced the temperature and excessive humidity from which Greater New York sweltered throughout the Sabbath.

Nowhere in the city was the suffering so intense as in the East Side tenement districts, where little preparation had been made for it. Ordinarily such days do not come until early in July. From hundreds of stuffy tenements thousands of children swarmed into the streets, many of them half clad and others struggling to rid themselves of such fragments of winter garments as still clung to their little bodies. Mothers with haggard faces peered out of lofty windows and shrieked in vain for their little ones to come in. The police were constantly called upon to quell infantile riots and scores of children were reported lost at nightfall.

Nearly every household among the tenement dwellers has been called upon to provide for one or more of the immigrants who swarmed into this city last spring and most of these have nothing but heavy winter clothing. In places the curbs and doorsteps were lined with heavy bearded men, exhausted and apparently suffering intense physical pain.

**Wife Gets $75,000 Alimony.**

Chicago, June 20.—A check for $75,000 is said to have been given by Charles T. Thaw, of New York, to Francis Rush, formerly a chorus girl, who received a divorce from Thaw here. The divorce was granted by Judge Albert Akers on statutory grounds, Thaw making no defense. No mention of alimony was made in the decree granted Mrs. Thaw, but her lawyer declares a check for the sum named was given to her by Thaw, the lawyer negotiating the transaction.

**Woman Accused of Murder.**

Guthrie, Okla., June 20.—Charged with murdering W. L. Hall, aged 78 years, father of Mrs. Annie Babcock, of St. Paul, and Mrs. McFarunan, of Minneapolis, Mrs. Will Loudenbach, 36 years of age, was lodged in jail here for trial. The murder, which occurred Tuesday at Orlando, Okla., was the outcome of the erection by Mrs. Loudenbach of a pig pen beneath a mulberry tree which stood close to the house in which Hall lived alone.

**May Run for Governor.**

Birmingham, Ala., June 20.—B. B. Comer, president of the Alabama state railroad commission, stated here that there was absolutely no truth in a recently published interview which represented that he had told a friend of his that he would under no conditions be a candidate for governor of Alabama. His interview, which first appeared in a Brimingham afternoon paper, purported to come from a politician who was personally and politically on confidential terms with President Comer. It was copied widely throughout the state.

## BREAK OCCURS IN [illegible] STRIKE

### Teamsters Seeking Employment As Individuals.

WILL DECLARE THE STRIKE OFF

Plans on Foot for Meeting Which Will Mark End of Struggle—Members of Freight Handlers' Union May Walk Out.

Chicago, June 20.—A pronounced break in the ranks of the strikers occurred today.

For the first time since the strike of many weeks ago, there were numerous instances where striking teamsters applied individually for former positions without waiting for the strike to be formally declared off. This was especially true at the lumber yards. George K. Wenig, of the Wenig Teaming company, said today:

"Many of our old teamsters have asked for their positions. Not one of them said anything about deliveries to the boycotted firms. I have done nothing yet in the matter and shall not do anything until I consult with other employers."

Indications are that the teamsters' strike will come to an end before the close of this week. The announcement was made that the strikers will be allowed to decide for themselves whether the strike shall be called off without conditions or will be allowed to continue.

Present plans which will be set on foot officially tonight at the special meeting of the teamsters' joint council, contemplate a referendum during the next few days, by which each of the teamsters, may decide for himself whether he has had enough of the warfare. One of the strongest arguments in favor of the referendum, it is added, is the fact that the peace terms of the employers contain demands diametrically opposed to the principal of the the teamsters' organization and that the drivers will rather call off the strike than agree to them.

Negotiations are in progress between the freight handlers' union and more than a score of railway companies for a new agreement. Over 4,000 members of the organization are demanding an increase in wages amounting to 10 per cent. The scale now ranges from $1.75 to $2 a day and the present agreement expires July 1.

**Rear End Trolley Collision.**

New York, June 20.—In a rear-end collision between two trolley cars at Maspeth, L. I., 11 persons have been injured, some of them quite seriously. Some were thrown from their seats, others being trampled on by the crowd in their efforts to get free from the wreck. Both cars were bound for New York crowded with home-going pleasure-seekers from a day at the beaches and in the country. A funeral party returning to Brooklyn from a cemetery in Flatbush, was struck by a trolley car at Rogers and Linden avenues, Brooklyn. The driver of the coach was fatally hurt. James C. Dunn, his wife and child, who were in the carriage, were badly hurt.

**Two People Killed in Riot.**

Warsaw June 20.—Two persons were killed and 36 were wounded in a conflict between troops and Socialists at Lodz yesterday. A procession of 2,000 Socialists carrying red flags was stopped by Cossacks. The Socialists thereupon fired and the Cossacks replied, and then charged with drawn swords into the thick of the procession. The disturbances were renewed this morning at a factory in the suburb of Baluty, which the troops cut off from communication with Lodz.

**Kansas Will Need Many Men.**

Kansas City, June 20.—Kansas farmers will need 25,000 more hand 2,249 teams to harvest their crops, according to a report made by the superintendent of the state labor department of Kansas. The harvest, including the threshing, will last about 60 days, and the wages will, it is said, range from $1.75 to $2.50 a day.

### FRANCE ACCEPTS INVITATION.

**Will Take Part In Proposed Conference Over Morocco's Affairs.**

Berlin, June 20.—Premier Rouvier has informed Prince Radolin, the German ambassador at Paris, that France is inclined to accept the invitation to take part in the proposed conference on Morroco, provided the German and French governments can reach a mutually satisfactory agreement as to the precise points to be considered by the conferees. The conviction exists at the foreign office that France and Germany will be able to agree upon this program. Although earnest differences of view are yet to be reconciled, the authoritative judgment of the foreign office is that they will be able to close the negotiations. M. Rouvier has thus far yielded to Prince Von Buelow on two essential points, on which M. Delcasse, former foreign minister, had refused the invitation to take part in the Morocco conference. M. Rouvier first consented to re-open the question and second, agreed to take part in the conference provided the protocol is in conformity with French interests. This will be accepted by Germany, which will limit the deliberations of the conference. Great Britain, supporting France, had also refused to join the proposed conference, but Foreign Secretary Lansdowne has, it is understood, said that if France accepted Great Britain would also accept.

A great diplomatic battle is in progress with the probability leaning toward the German success.

### GOVERNOR FOLK TO SPEAK.

**Will Deliver Alumni Day Address at Vanderbilt University.**

Nashville, Tenn., June 20.—Commencement exercises are being celebrated today at Vanderbilt university, this being alumni day.

The commencement address will be livered tomorrow night by David J. Brewer, justice of the United States supreme court. Governor Joseph W. Folk, of Missouri, will deliver the alumni day address tonight. Governor Folk accompanied by Professor Chas. P. Curd, of St. Louis, who will read a poem at the alumni banquet. Justice and Mrs. Brewer visited the Hermitage this morning, being accompanied by Mrs. J. H. Kirkland, wife of Chancellor Kirkland, of Vanderbilt.

At 4:30 o'clock this afternoon a public reception will be held at the Maxwell house under the auspices of the Chamber of Commerce in honor of Justice Brewer and Governor Folk.

**American Yacht Wins Again.**

Island of Heligoland, June 20.—The American schooner yacht Atlantic won the race for auxiliary yachts from Dover to Heligoland, completing the course in 41 hours, 26 minutes, 24 seconds. The annual race from Dover to Heligoland was won by the schooner yacht Susanne, owned by O. Huldschinsky, of Germany. Time 40 hours, 43 minutes, 40 seconds. The yawl Therese, owned by Felix Simon, of Germany, was second, in 40 hours, 58 minutes, 30 seconds. The American-built schooner yacht Navaho, owned by George W. Watjens, of Germany, was third, in 42 hours, 8 minutes, 32 seconds, and the British schoner yacht Sunshine, owned by L. H. Solomon, was fourth, 42 hours, 42 minutes and 48 seconds.

**Denounced New Negro.**

Atlanta, June 20.—That the negro is a lawless character, that he is immoral and reckless; that he has respect neither for the rights of man on earth nor the authority of God in heaven and that he is a "liar," if he denies the charge, are some of the statements made by Rev. J. A. Davis, D.D., presiding elder of the Atlanta district, African Methodist Episcopal church, during his sermon in Big Bethel church.

**Policemen Kill Bad Negro.**

Montgomery, Ala., June 20.—Police Officers Oscar McDade and H. T. Ragland, special men on the night shift, had a desperate encounter with a bunch of thieves, one of whom may prove to be a white man, at daylight Sunday morning, and as a consequence Ragland is in the hospital with three grows to dead, shot several times after bullet holes in bi mand one of the no-he himself was hit by Officer Ragland.

## BOILER EXPLODES IN NEW YORK CITY

### Banks of Hudson Covered With Shower of Steel.

TWO KILLED: SEVERAL INJURED

The Injured, Which Numbers Upward of Twenty, Some Seriously, Were Taken to Hospital—Police Are Investigating Cause of Explosion.

New York, June 20.—Two deaths have already resulted from the shower of shattered steel and clouds of steam which followed the boiler explosion near the banks of the Hudson river on the upper west side yesterday. The victims are:

Joseph Morgan, negro, a fireman, whose death resulted from scalds.

Frank Marone, 18 years old.

Marone, with three companions, was swimming in the Hudson when the shower of debris fell over the water. He was not seen again, and the police who have investigated the case say it is certain that he was struck by a flying missle and instantly killed or made helpless and drowned.

Four other persons who were injured are in a hospital in a serious condition. 20 others who were treated by physicians are at their homes and two men are under arrest and will be held by the police pending an investigation of the explosion.

One of the men held by the police is Daniel Barry, assistant engineer at the subway construction company's power house where the explosion occurred. He is one of the four seriously injured.

The other is John L. Keavney, who says he is only a record clerk for the company and says he had nothing to do with the operation of the plant.

### TRAGEDY IN CALIFORNIA.

**Woman Evidently Kills Husband and Then Commits Suicide.**

Los Angeles, Cal., June 20.—C. E. Thaisze, manager of a drug store in Pasadena and his wife were found in a ranch house near Glendale, several miles north of this city last night. A bullet in the man's forehead and one in the woman's breast show how they met their deaths.

There were signs of a struggle in the house. The couple evidently had quarreled and one had shot the other with a revolver and then committed suicide.

Powder burns on the woman's dress indicate that she might have done the killing. The weapon used was a revolver. No reason is known for the quarrel and subsequent killing. The couple were each about 38 years and resided in this city. They had gone to the ranch for an outing.

**New Cabinet Appointed.**

Budapest, Hungary, June 20.—Simultaneously with the appointment of the new cabinet Emperor Francis Joseph sent an autograph letter to Premier Fejervary, regretting that he was unable to select a ministry from the majority because the latter's program was unjustified, and placing the destinies of the nation in the ministry's hands. While approving of the majority's proposals for interior administration, the emperor declares he can only accept the demands regarded the army within certain limits. The letter concludes: "It would afford me great satisfaction if you could pave the way for an understanding on the lines indicated, thus furthering the appointment of a cabinet from the majority.

**Complaints Against Tom Taggart.**

Indianapolis, June 20.—Governor Handley has received a letter from Harry A. Carnes, a prominent attorney of southern Indiana, in which he complains of the gambling that is going on at French Lick, Tom Taggart's resort, and says that the local officers take no steps whatever to suppress it notwithstanding the fact that it is done openly and in defiance of law. He says that there have been many complaints from persons who have lost money at the resort.

# THE ENDORSEMENT OF GAINESVILLE

## By the Commissioners of Several Counties of the State

### AS PLACE FOR THE UNIVERSITY

**The State Convention of County Commissioners at Orlando Formulate Resolutions—Gainesville the Unanimous Choice.**

Special to The Daily Sun.

Orlando, June 20—The meeting of the State Convention of the County Commissioners of the several counties of Florida, together with the State Good Roads Convention, opened with a large attendance.

One of the important features of the meeting was the following preamble and resolutions, which were unanimously passed by the convention:

Whereas, The recent Legislature of the State of Florida has abolished the educational institutions named in the Buckman bill and has provided for the establishment of a State University; and

Whereas, The location of such institution is of vital importance to every citizen of our State and should be located where the social, moral and religious environment of the community is strong and healthy; and

Whereas, The city of Gainesville is the home of the first-born of Florida's schools—the East Florida Seminary, and the said city is thoroughly imbued with a deep and wholesome educational sentiment, and is nearest the geographical center of the State and the center of the population; therefore, be it

Resolved, That we are convinced the educational interests of the State will be best promoted and the moral, religious and intellectual training of her sons best conserved by locating the State University in the said city of Gainesville.

Resolved, That we respectfully urge upon the State Board of Managers the selection of the city of Gainesville for the location of the State University of Florida.

Resolved, That a copy of these resolutions, signed by the chairman of the convention and attested by the secretary thereof, be transmitted to the Board of Managers when appointed by the Governor.

### ANOTHER PICNIC.

**People of Seven Mile Pond Will Celebrate the Glorious Fourth.**

The good people of Seven Mile Pond, in the West End, with usual patriotism, have decided to hold a big picnic on the Fourth of July.

Seven Mile Pond is located, as the name indicates, seven miles north of Willeford. The settlement is one comprised of energetic and wide-awake citizens, and there is no doubt but that this picnic will be crowned with the same success as former similar occasions.

A cordial invitation is extended the public. Let everybody come, bring well-filled baskets, and enjoy a day's outing. There will be speakers of prominence, and the day will be passed in a manner becoming the occasion. There will be athletic games of all kinds in connection with the speaking, and the day may conclude with a fine game of baseball.

### AN ENCOURAGING LETTER.

**Supervisor Lanier Writes Col. Robinson That Lake is O. K.**

The best evidence that the people of Lake county are all right for Gainesville in the matter of the new State University, is a letter from Hon. T. B. Lanier of Tavares, supervisor of registration of Lake county, and one of the most thoroughly posted men in that section. Mr. Lanier writes as follows:

"As to the location of the University to be east of the Suwannee river, I find our people of Lake county will be almost solid for Gainesville, and we hope to see the University there."

### Piano Men's Convention.

The Amalgamated Piano Dealers of Florida are in session in Gainesville this week, and the delegates are as follows:

A. R. Harper, exalted salesman; J. B. Wilson, grand mogul; J. B. Pate, supreme speller; A. J. Foskett, tuning chief; LeRoy Way, first assistant tuner to Foskett; B. Chase, second assistant tuner to Foskett.

The "bunch" as an aggregation are clever fellows, and are up to the minute on all matters appertaining to the piano and organ business.

**A Thousand Dollars' Worth of Good.**

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurnes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollum & Co.

### A DANISH BOARHOUND.

**He Was a Jealous Brute and Carefully Guarded His Mistress.**

During a visit to a friend in the country Sir Henry Hawkins had an adventure with a boarhound which he describes in his "Reminiscences:"

There was an enormous Danish boarhound which had, unperceived by us, followed Mrs. Harlstone from the library. He pushed by without ceremony and proceeded until he reached the lady, who was some distance in advance. He then carefully took the skirt of her dress with his mouth and carried it like an accomplished train bearer until she reached the bottom of the stairs and the garden, when he let go the dress and gazed as an interested spectator.

But before we parted from Mrs. Harlstone and while I was talking to her I felt my hand in the boarhound's mouth, and a pretty capacious mouth it was, for I seemed to touch nothing but his formidable fangs. So soft was the touch of his fangs that I was only just conscious my hand was in his mouth by now and then the gentlest reminder. I knew animals too well to attempt to withdraw it, and I preserved a calm more wonderful than I could have given myself credit for.

While I was wondering what the next proceeding might be Mrs. Harlstone begged me to be quite easy and on no account to show any opposition to the dog's proceedings, in which case she promised that he would lead me gently to the other side of the lawn and leave me without doing the least harm.

As I was being led away Mrs. Harlstone said: "Do exactly as he wishes. He is jealous of your talking to me, and any one who does so he leads away to the other side of the garden."

Having conducted me to the remotest spot he could find, he opened his huge jaws and released my hand, wagged his tail and trotted off, much pleased with his performance.

### YOUR DAILY TASK.

**Bring Your Whole Self to It With All Your Powers Intact.**

It makes all the difference in the world in results whether you come to your work every day with all your powers intact, with all your faculties up to the standard; whether you come with the entire man, so that you can fling your whole life into your task, or with only a part of yourself; whether you do your work as a giant or as a pygmy. Most people bring only a small part of themselves to their tasks. They cripple much of their ability by irregular living, bad habits in eating and injurious food, lack of sleep, dissipation or some other folly. They do not come to their tasks every morning whole men. A part of themselves and often a large part is somewhere else. They left their energy where they were trying to have a good time, so that they bring weakness instead of power, indifference and dullness instead of enthusiasm and alertness, to the performance of the most important duties of their lives. The man who comes to his work in the morning unrefreshed, languid and listless cannot do a good, honest day's work, and if he drags rotten days into the year how can he expect a sound career or a successful achievement?

Good work is not entirely a question of will power. Often this is impaired by a low physical standard. The quality of the work cannot be up to high water mark when every faculty, every function and every bit of your ability is affected by your physical and mental condition. You may be sure that your weakness, whatever its cause, will appear in your day's work, whether it is making books or selling them, teaching school or studying, singing or painting, chiseling statues or digging trenches.—Orison Swett Marden in Success Magazine.

**Distances at Sea.**

That man was laughed at who on his first voyage said that the ocean did not look so large as he supposed it would, but he was not alone in experiencing disappointment. The horizon at sea gives no idea of the limitless water beyond. A sea captain declares that the average landsman cannot see more than ten miles from the ship in any direction, and it would have to be a mountain or some stationary object for him to be able to distinguish it. The masts of a ship are said to be visible to the naked eye not more than five miles.

**BEARING DOWN PAINS**

3647 Indiana Avenue.
CHICAGO, ILL., Sept. 27, 1902.

I have been a sufferer with almost every kind of female trouble for years, but as long as I could get around and do my work I would not try patent medicines as I had no faith in them.

About eight months ago I had to take to my bed, suffering with prolapsus of the uterus, with bearing down pains and intense pains in the back. My aunt, who came to nurse me told me of Wine of Cardui and sent for a bottle. I am indeed glad that she did, for that first bottle started me on the road to recovery. In a few weeks I was out of bed and in three months I was in better health and stronger than I had been in years. I take a dose now, occasionally, of Wine of Cardui and am kept in perfect health.

Mabel Cooke
Sec'y. Woodman's Circle No. 70.

Wine of Cardui brings certain relief to women suffering any symptom of female weakness and perfectly regulates the menstrual flow. Wine of Cardui stops bearing down pains by permanently relieving the irritation which weakens the ligaments holding the womb in place. You need not suffer every month if you take this medicine. The periodical discharge will be painless and healthy without continual weakening drains. Wine of Cardui will make your health right and you may treat yourself privately in your own home. Secure a $1.00 bottle of Wine of Cardui from your druggist today.

### WILL BUILD A HOME.

**J. R. Williams Will Make a Home of His Own Near Tampa.**

J. R. Williams of Alachua, who re...tly acquired a valuable tract of land ...mprising several hundred acres in ...e suburbs of Tampa, was in the city ...r a few hours Tuesday.

Mr. Williams was en route to Tampa. He was accompanied by J. W. Patton, whom he has employed to survey and divide into lots the tract and proposes to make a good, lively town of his own.

"I have a great deal of confidence in the future of Tampa," remarked Mr. Williams. "I believe that Tampa is going to become the city of Florida. With its vast cigar and tobacco industry, its wholesale ...manufacturing interests, why shouldn't Tampa become famous as one of the most important points not only in Florida but in the South?"

Mr. Williams' property is among the most valuable of the Tampa suburbs, adjourning West Tampa, and there is no doubt but that he will make a fine thing financially from the same.

### GRANGER MADE A HAUL.

**Brought Eight Gamblers and Another Offender to This City Tuesday.**

Deputy Sheriff Granger made a big haul near Komoko Monday night, when he arrested eight gamblers and one man charged with selling liquor in a dry county.

The prisoners were arraigned in Judge Mason's court, and the gamblers were adjudged guilty and sentenced to pay a fine of $10 and costs or three months in the "gang" each. Judge Knight, the party accused of selling liquor, was placed under a bond of $500 for his appearance at the next term of the circuit court, which was given. The gamblers will be sent to the pen.

**Judge Mason's Court.**

Judge Mason's court was a busy scene for a few hours Tuesday, the case of A. D. Nelson vs. the Seaboard Air Line Railway Company having come before the court. The case was a claim for the loss of two cows, alleged to have been killed by the trains of the defendant company, and the jury returned a verdict for the plaintiff in the sum of $30.

The jury in the case was as follows: D. A. Robertson, foreman; M. B. Saunders, E. C. McMahan, A. F. Harrod, M. G. McCarroll, W. O. Tison.

Judge J. A. Carlisle represented the plaintiff, while Attorney W. E. Baker appeared for the defendant.

**Kills Man on Wedding Eve.**

Austin, Tex., June 20.—Sidney Lawson, 21 years of age, who was to have been married, killed his brother-in-law, Walter Bliss, 12 miles south of this city, Sunday morning, and is now in jail here. As a result of bad blood between Lawson and Bliss, the latter called at Lawson's house and tried, it is said, to get him to come out and fight. Lawson finally came out with two shotguns and began firing killing Bliss almost instantly, then came to Austin and surrendered.

### THE HEATHEN ESKIMO.

**He Is Good Humored With His Queer Customs and Beliefs.**

Professor Mylius Eriksen, writing of the heathen Eskimo in northern Greenland, says: "He lacks imagination, but his powers of observation are very acute. In spite of the fact that his life is an uninterrupted struggle for existence the Greenlander is always in a good humor, and his boisterous laugh can be heard sounding far over ice and snow fields. His way of telling stories is short and abrupt, but comical features are strongly emphasized. His stories consist generally of his own adventures, old legends about fights with neighbors and wild animals, about severe winters and great famines, about the creation of the world and about supernatural beings. It is considered highly creditable to be able to tell stories so long that the audience is lulled to sleep. An orator who achieves this feat is solemnly welcomed on the next morning, and every one thanks him profusely for the pleasure which he accorded the night before.

"Ideas of beauty are peculiarly developed in the heathen Eskimo. He regards beauty solely from the standpoint of utility. For instance, a rock projecting out of water only appears beautiful to him when it is visited in summer by water birds which breed there. A foaming torrent is only beautiful if it contains many salmon. Clothes are not put together with any idea of regularity of color, only their practical utility being considered. Huts are made of snow and stones, with domed tops, but without any architectural design.

"Only the spirit conjurers (angakoks) occupy an exalted position, being regarded as priests and doctors. Their task is to establish a connection between the visible world and the hidden spirits, and in this way they obtain a certain influence over their neighbors. The angakok asks his spirit for advice and then informs the invalid that his illness has been sent by the spirits as punishment for certain deeds."

### A TALE OF TWO SCOUTS.

**Narrow Escape From a Rattler and a Band of Indians.**

In Cyrus Townsend Brady's "Indian Fights and Fighters" is a tale of two scouts, Trudeau and Stillwell, who carried to General Carpenter through an Indian infested country the news that Major Forsyth was being besieged in the sands of Beecher's island by a thousand warriors. Here is one incident of their journey:

"During this day a large party of scouting Indians halted within 100 feet of the wallow where the scouts were hiding. Simultaneously with their arrival a wandering rattlesnake made its appearance in front of the two scouts, who were hugging the earth and expecting every minute to be discovered.

"In his way the rattlesnake was as deadly as the Indian. The scouts could have killed him easily had it not been for the proximity of the Cheyennes. To make the slightest movement would call attention to their hiding place. Indeed, the sinister rattle of the venomous snake before he struck would probably attract the notice of the alert Indians. Between the savage reptile and the savage men the scouts were in a frightful predicament, which young Stillwell, a lad of amazing resources, instantly and effectually solved.

"He was chewing tobacco at the time, and as the snake drew near him and made ready to strike Stillwell completely routed him by spitting tobacco juice in his mouth and eyes and all over his head. The rattlesnake fled. He could not stand such a dose. The Indians presently moved on, having noticed nothing, and so ended perhaps the most terrible half hour the two men had ever experienced."

**The Onion.**

The value of the onion in the dietary has been made the subject of much doggerel verse. All agree that health and beauty wait on the fragrant vegetable.

Eat onions in May,
No doctor you'll pay,

runs one old verse, while another promises a good complexion to the onion eater thus:

Fresh onion and leek,
New skin in a week.

**A Bad Scare.**

Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as headache, biliousness, costiveness, etc. Guaranteed at all druggists'; only 25c. Try them.

### IMPORTANCE OF CARBON.

**Without It or Its Equivalent We Could Have No Arc Light.**

The electric arc light as now so commonly used is produced by the passage of a powerful electric current between the slightly separated ends of a pair of carbon rods, or carbons, about twelve inches long and from three-sixteenths to one-half inch in diameter, placed vertically end to end in the lamp. The lamp mechanism is so constructed that when no current is passing the upper carbon, which is always made the positive one, rests upon the lower by the action of gravity, but as soon as the electric current is established the carbons are automatically separated about an eighth of an inch, thus forming a gap of high resistance in the electric circuit, across which the current is forced, resulting in the production of intense heat. The ends of the carbons are quickly heated to brilliant incandescence, and by the burning action of the air are maintained in the form of blunt points. As the carbons burn away, the lamp mechanism feeds the upper one downward just fast enough to maintain the proper separation.

The carbons are not heated equally, the upper or positive one being much the hotter. A small cup shaped cavity or "crater," ordinarily less than an eighth of an inch in diameter, is formed in its end, the glowing concave surface of which emits the greater part of the total light. In lights of the usual size, something like half a horsepower of energy is concentrated in this little crater, and its temperature is limited only by the vaporization of the carbon. Carbon being the most refractory substance known, the temperature of the crater is the highest yet produced artificially and ranks next to that of the sun. It is fortunate that nature has provided us with such a substance as carbon, combining, as it does, the highest resistance to heat with the necessary electrical conductivity. Without carbon or an equivalent—and none is known—we could have no arc light.—Charles F. Brush in Atlantic.

**Tax on Babies.**

Extreme hot weather is a great tax upon the digestive power of babies. When puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. Sold by W. M. Johnson.

**The Giant's Staircase.**

One of the most widely known geological curiosities in the vicinity of Cork is a series of knobs or knots projecting from the face of a cliff. There are sixteen of these huge projections all together, all regularly set in the face of the cliff, one above the other, forming a series of such uniformity as to give it the general appearance of a stairway. Since time out of memory this queer ascent and its projecting "steps" have been known as the Giant's Staircase.

**David Brainard and Yale.**

In the course of a talk on the life of David Brainard at Longmeadow the story of his expulsion from Yale college came out. Brainard lived in the time of the evangelist Jonathan Edwards and "the great awakening," with which both men were identified. Brainard entered Yale in 1739 and was expelled in his junior year after being found guilty on the charge of having given currency to the statement that a certain tutor had no more religion than a chair.

**Consoling.**

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The summer normal schools of the State have been "Buckmanized."

The people of Bradford county are having some good work done on their roads in the vicinity of Starke.

If King Oscar of Sweden would only postpone his little trouble until President Roosevelt gets the Japan-Russian trouble settled he will be next.

The papers of the State should suspend publication of jokes on the Russians for a week, at least, so that all the old ones would get worked off.

The Tampa fair and insurance company are occupying the attention of the people of that city at the present time, and the hotel deal may be neglected.

Gainesville has more fine residences than any other place of its size in Florida. Our carpenters are composed of a lot of first-class workmen, which accounts for it.

When Gainesville gets her system of sewerage put in we will have a new hotel built here. There are men ready to push the enterprise to completion without delay.

The meeting of the National Educational Association, which will be held at Asbury Park, N. J., July 3d to 7th, will draw together the most influential educators of the world.

Jacksonville don't care to have the University located in that city. If they had wanted it, long before this the foundation would have been laid and the building been started.

In many portions of Florida the melon growers report excellent crops, the yield and quality being all that could be asked. All that is needed is low rates for shipment to the markets, and the melon crop of this State will be a winner.

The State of Florida education is in a condition today that was never experienced before—discharged professors of the defunct State colleges are seeking employment in the academies and common schools of nearly all the counties.—Bartow Record.

The Ladies' Home Journal has had more free advertising than any other publication in the United States and it furnishes the cheapest trash of any of the dollar monthlies at the present time. If it was not for the printers' and engravers' art, there would not be much to the publication.

Grant was unknown and discouraged at forty, a hero and a president at forty-seven. Lincoln went into the White House at fifty-two. Taylor began to be a strenuous president at sixty-five. Washington fathered his country while in the forties and fifties and became chief magistrate at fifty-seven. Benjamin Franklin did his best public service after he was seventy. So examples could be multiplied indefinitely. In the United States Senate today, out of the ninety members, more than a score will reach seventy years in age before 1907.

## THE MONEY OUTLOOK.

In an article relating to money now and in the fall The Wall Street Journal says that there may be an active money market this fall is not at all unlikely. The country is prosperous. There is a full movement of trade. The crops promise to be large. The harvest demands for currency will probably be normal, while a declaration of peace between Russia and Japan may involve an indemnity, payment of which would have to be arranged by the international bankers. All of these things would naturally tend to increase the demand for credit and to some extent reduce the reserves upon which credit must rest.

But while the money market may become active in the fall, as it usually does, there is no indication whatever of any trouble to be anticipated therefrom, and so far as the situation is at present concerned, it is one of continued ease which is not likely to be broken until the fall except for temporary shifts due to the preparation for the July disbursements.

The situation is best disclosed by the fact that loans have been made this week at 3 per cent for four months, that the supply of commercial paper is so scarce that banks which make a specialty of investing their funds in such paper have difficulty in obtaining it in sufficient quantity, though seeking it in Chicago and other Western points, and that brokers are offering the banks loans that would not mature until January at 4 per cent.

As to the war indemnity it should be remembered that, thanks to the modern system of credits, this would amount only to a transfer of credit from one nation to another; the actual money would still remain as a part of the international reserves, though there might be a necessity for shifting of some gold from the United States to Paris.

It is well to remember that money lenders and their brokers are disposed at times to exaggerate conditions in order to stimulate a demand for loans.

## FROM THE STATE PRESS.

If we must decide, we will decide in favor of Gainesville for that University. Gainesville is not only a dry town, but it is glad of it.—Fernandina Star.

The contest for the site of the University is proving to be a battle royal between Lake City and Gainesville. Other "favorably mentioned" cities have apparently made way for these two places and the final outcome is awaited with general interest.—Palatka Times-Herald.

The location of the State University is creating considerable discussion throughout the State. Gainesville and Lake City are in the lead and either place would make an excellent location. But as Gainesville is the more central location and possesses every other desirable quality, it is more than probable that it will be located there. Gainesville is all right anyway.—Macclenny Standard.

Gainesville is an ideal place from every point of view for the location of the new University of Florida. The place is physically and morally clean, and for a long time the people of the place have had an ambition to make it an intellectual center. If members of the board having the location of the University in hand will but pay attention to the demands of the people instead of the will of politicians—put their ears to the ground and listen—they will easily learn that Gainesville is the first choice of the people of the whole State.—Palatka News.

The demand for residences still continues in this city and carpenters are busy all the time. A dozen or more five or six room cottages would be ready renters at good prices.

## BE DOING.

The Canadian government is using all of her energies to induce farmers from the United States to settle in the Canadian Northwest, and it is meeting with no small amount of success. Many papers in the Northern States have advertisements announcing the opportunities offered, and the Canadian authorities contemplate running an excursion to that country, to be composed of newspaper correspondents, in order to have extensive write-ups of the trips published all over the country. While the Northwest may be a great country, the South offers greater inducements, when climate is considered.

But these Canadians are working like beavers for this one object, and if the people of the United States want to put a check on the immigration of people to Canada, they must be up and doing.

If the President would just tell his party what man he wishes nominated as his successor it would doubtless contribute materially to the efficiency of the administration. Secretary Shaw would then have time to worry about that deficit, Vice-President Fairbanks could study up the rules of parliamentary procedure, Secretary Taft need speak at fewer commencement exercises and Postmaster-General Cortelyou could confine his attention to improving the postal service.

### Discuss Immigration Question.

New York, June 20.—Business men, sociologists and others responding to the call of the New York Civic Federation, will begin today a formal discussion of the immigration question in the rooms of the New York board of transportation. While it had been estimated frequently that at least 60 per cent of the immigrants arriving at this port remain in New York, the overcrowded condition of the east side streets and tenements during the past six months has awakened new interest in the matter and plans will be discussed for ridding the city of the burden. Some of the authorities estimate in Greater New York nearly 100,000 English-speaking families are on the verge of destitution because of the influx of cheap labor.

**That Tired Feeling.**

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes: "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Johnson.

**General Synod of Lutherans.**

Pittsburg, June 20.—The fourth day's session of the general synod of the Evangelical Lutheran church in America, convened today with devotional exercises. Notwithstanding the warm weather today all the 260 delegates were in their seats. The 19th biennial report of the board of church extension shows for the two years ending April 30, last, the total receipts were $145,194, an increase over 1903, of $12,220. The total assets were $471,869. During the biennium fifty-two churches were aided by loans and 203 received donations. The amount raised by the twenty-five synods in the past year was $69,772, which was $13,663 less than the apportionment.

**Telephone a Device of Satan.**

Indianapolis, June 20.—The national conference of the Old German Baptists, which has been in session at Flora for the last four days, adopted a resolution ordering all the members of the church to discontinue the use of the telephones. There was a long discussion, in which it was argued that the telephone is a device of satan, that it makes people lazy and that there is no warrant in Scripture for its use.

**Cures Old Sores.**

Westmoreland, Kans., May 5, 1902. Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Mifflin Co., Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle. Sold by W. M. Johnson.

**A FACT PROVEN.**

**Should Convince Even the Most Skeptical of Its Truth.**

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

**CANADIANS VISIT KING.**

**Welcomed to England by Their Ruler and Wife.**

Windsor, June 20.—King Edward and Queen Alexandria gave a hearty welcome this afternoon to 103 Canadian women and the 175 members of the Canadian manufacturers' association who arrived from Montreal and Quebec and whose presence at Windsor Castle was commanded for today. The party was met by carriage provided by the king and was shown the Victoria mauseoleum and other sights. The visitors were then received on the east terrace of the castle by their majesties, the king saying so that all could hear:

"Welcome to England.

"Welcome to Windsor!

"I hope you will all enjoy your visit to the old country."

The visitors then sang the national anthem.

**Huge Task.**

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists; price 50c.

**Deferred.**

"What," asked the youth, "was the happiest moment of your life?"

"The happiest moment of my life," answered the sage of Sageville, "is yet to come."

"When do you expect it?" queried the inquisitive youngster.

"When people cease to ask fool questions," replied the philosophy dispenser.—Chicago News.

**Right Now.**

After all, what's the use? No matter how hard we may fight, we lose in the end; no matter how much we may seemingly conquer, in the end we are wretchedly beaten; no matter how much we are in the public eye, within two weeks after our death we are too dead to be talked about. There is only one time in the world, and that is now.—Lawrence (Kan.) World.

## TWENTY-FIVE KILLED IN WRECK.

**Passenger Train Carrying Railroad Employes Crashes Into Freight.**

Baltimore, June 20.—The death roll of last night's disaster on the Western Maryland railroad now foots up 25 and this number is likely to be increased from among the list of those priviously mangled.

All the dead were employes of the railroad company, returning to their homes in the small towns along the railroad to spend Sunday. With the exception of the train crews, they had been at work repairing the damage done to the road about ten days ago by a minor freight wreck. The train which was No. 5, passenger, westbound, carried a large number of passengers, all of the coaches being filled. As many of the workmen as could do so went into the baggage car, the remainder of the gang of 35 finding places on the platforms between the mail and baggage cars and between the mail and baggage cars and between the latter and the tender.

In the neighborhood of Batapasco station, about 8 miles from Westminster, the Western Maryland has many curves, and that just west of the bride crossing the Patapsco river is a sharp one.

An extra freight, made up of heavy coal and provision cars, was running east. It sould have taken a siding to allow No. 5 to pass. Such were the orders. Why they were disregarded will never be known, for all those who should have seen that they were obeyed are dead.

## TWELVE NEGROES ARE KILLED.

**Riot on Board Excursion Train Results Fatally.**

Griffin, Ga., June 20.—Chief of Police Phelps says his latest information regarding the shooting on the Southern train is that 11 negroes are dead as a result.

Vann Mitchell and West Chunn, two Griffin negroes of bad reputation, are held here as suspects. They saw the trouble was started about a crap game that had been going on all day. Three are said to be dead at McDonough, five were dead when the train reached Griffin, and several have died since at their homes.

A crap game had been started on the trip up to Atlanta, and it was continued as the train left the terminal station. The negro arrested here is said to have started the fight, which raged unceasingly until Griffin was reached. Accurate information is almost impossible to obtain, although it is reported here that one negro was found dead at Flint river, besides those mentioned above.

Griffin officers think that negroes from here were largely mixed up in the rio,t and they are working hard on the case.

## SPECIAL TERM OF COURT.

**Called to Try Those Who Are Charged Will Killing Boy and Girl.**

Valdosta, Ga., June 20.—The assurance that a special term of the court would be called for the trial of J. G. Rawlings, his three sons and the negroes said to be implicated in the Carter assassinations, has done much to still the tempest which was rising high last night.

The court will be held early in July, if Judge Mitchell agrees to that time. Solicitor Thomas stated that the state was ready fo rtrial any time. Ali Moore's confession agreed exactly with the dying statement of Willie Carter. When the elder Rawlings learned that Moore was under arrest, he is said to have collapsed. There are still one or two arrests to be made, but they are for the purpose of securing more evidence.

Moore's confession is said to be corroborated by other evidence in the possession of the solicitor general. The latter stated to Judge Mitchell that he was practically ready for trial of the accused men.

**Another Fast Train to Chicago.**

New York, June 20.—The Twentieth century limited train on the New York Central railroad arrived in this city from Chicago at 9:27 a. m. today, thre minutes ahead of time. It left Chicago at 2:30 p. m. (Central time) yesterday and made th erun in seventeen hours and fifty1seven minutes. This was the tweatieth century's first trip as an 18-hour train.

**Stimulation Without Irritation.**

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irratating them. Orico Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Company.

**Want Americans to Control.**

New York, June 20.—Dr. Salvador A. Pratto, consul of Argentina, at St. Louis, has gone to Washington, where he expects to meet President Roosevelt for the purpose of discussing the greater American control and financial representation in the South American republic. Dr. Pratto is authority for the statement that there are invested in Argentina $1,500,000,000 of English capital while the American investments amount to about $20,000,000. A lack of the initiative on the part of the United States in cultivating this rich field for investment declares Dr. Pratto, is responsible for the practical monopoly held by the English.

**Miraculous Escape of Baby.**

Western W. Va., June 20.—An entire passenger train passed over 2-year-old Sterling Teney and he still lives, but will be maimed for life. The child was playing on the railroad track near the home of his father, Homer Tenny, at Alton, when the passenger train came along. The little fellow's body was so small that it escaped the pilot firebox and all the trucks, but his right arm fell upon the rail and was cut off at the elbow. He did not receive another scratch.

**Two Chinamen Enter West Point.**

West Point, N. Y., June 20.—For the first time in the history of the military academy representatives of the Chinese empire were admitted as cadets in the institution. The two young Chinamen, Ting Chia Chen and Ying Hsing Wen, with Luis Bagran of Honduras and F. Thomas Plaza of Ecuador, under special act of congress will receive instructions with the class of 145 candidates who were received as cadets.

**Cured of Bright's Disease.**

Geo. A. Sherman, Lisbon Red Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

**Private Ownership Best.**

New York, June 20.—James Dalrymple of Glasgow, an authority on municipal ownership, who came to this country to study conditions in various cities where the subject has been agitated, goes to Montreal tonight. He has visited New York, Buffalo, Chicago, Minneapolis, St. Paul, Cleveland, Philadelphia and Washington.. "I came to this country a believer in public ownership," he said, "but after a study of the situation here I am forced to believe that private ownership under proper conditions is better for the American cities."

**Equitable Report Not Ready.**

New York, June 20.—Private advices received from Albany today indicate that Superintendent Hendrick's report of his investigation of the Equitable society will not be completed for several days. Mr. Hendricks was not here today, but Assistant Deputy Superintendent Vanderpool was at the Equitable office. Comptroller T. D. Jordan was sent for.

**Victim of Joke Kills Self.**

Milwaukee, June 20.—Worry over the loss of pay tickets intrusted to his care by his employer, and which were taken as a joke, caused Charles Schmidt aged 65 years, to commit suicide by hanging himself.

**No Secret About It.**

It is no secret that for cuts, burns, ulcers, fever sores, sore eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Tex. 25c at all drug stores.

## JAPANESE MIRRORS.

**Some That Are Supposed to Possess a Magic Quality.**

Some Japanese mirrors are supposed to possess a magic quality, which has rendered them objects of superstitious reverence for centuries, and, in fact, it has even puzzled modern science not a little. When a strong beam of light is so reflected from one of them as to be thrown upon a screen, there appears upon the screen an image in delicate tracery perfectly reproducing the pattern engraved in relief on the back of the mirror, which, of course, is altogether hidden from the light. Inasmuch as the face of the mirror presents a surface that is perfectly smooth, apparently the reason for this phenomenon is difficult to find. Its cause, however, is simple enough. The preliminary operation of polishing the face consists in scoring the cast disk with a sharp tool in every direction.

The thicker portions, where the ornamentation in relief is on the back, offer more resistance, and the result is a corresponding inequality of the polished surface. This inequality is not sufficiently marked to be visible to the naked eye, but it is enough to turn the rays of light, and thus the pattern of the engraving on the back is reproduced on the screen in the manner described. These so called magic mirrors are so highly valued that they sell from ten to twenty times the price paid for ordinary ones.

**A Peculiarity of Ghosts.**

Scientific personages as well as the rest of us have always been puzzled by the degeneration of the dead both in taste and in intellectual power. No matter how fastidious a man may have been during his lifetime, he is no sooner dead than he develops a marked partiality for back rooms up two flights of greasy, rickety stairs in disreputable tenements. His favorite environment is now dirt and squalor, and his favorite companions are the ignorant and the half witted. The nature of the next world, the aching secret which the human race through all ages has eaten its heart out to know, is ignored by these modern ghosts in favor of shoestrings which they happened to leave in the corner of an old desk and which they beseech us to go and find. —Chicago Tribune.

**Will Cure Consumption.**

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of anyone using Foley's Honey and Tar and not being satisfied. J. W. McCollum & Co.

Rugby school was ... somewhere about 1567. It was ... of the direct results of what has ...n called the Florentine or Tuscan ...ver in England, which set in late in ... Italian renaissance. Not only did ... of letters come over and settle in ...gland's centers of learning and cre... others, but many Florentines vers... in the theory and practice of polite ...ture came as well. The game of il ...calcio came to Florence by way of ...Greece. Something of the sort had fig... among the less important games ...Olympia. The principal Florentine ...ound was the Piazza di Santa Croce, ...here upon the wall of the Palazzo ...Giulio Parrigi is still to be seen the disk ...from which the line dividing the ground was drawn across the open ...square. The ball was of leather, containing an inflated bladder, and apparently was the exact size, weight and ...shape of the Rugby ball of today.

"Il calcio consisted of a friendly contest between two equal sides of players called schiera azzura and schiera ...rossa—blues and reds. The number of players varied according to the size of the ground or the importance of the encounter. In the Piazza di Santa Croce the sides were twenty to twenty-seven strong, while on the public open sports ground at Peretola they totaled as many as sixty each. Originally the players were required to be of noble or gentle blood or such as had gained distinction and rank in the profession of arms. Each man had to be of unblemished reputation and of graceful figure and possessed of accomplished manners.

"In addition to the actual players were presidents, standard bearers, judges, an umpire, pages and other officials, all 'without reproach, worthy of the city and courteous in manner.' The costumes of the players were tight fitting drawers and tunics of silk, with feathered caps, all richly embroidered in gold and silver. Leather shoes were worn. The teams were divided into four classes: Forwards, whose places were near the dividing line and whose work was to keep the ball in play; halfbacks, stationed behind the forwards, in order to return the ball to play; three-quarter backs, who were strong kickers and played straight on the ball, and goal keepers, placed at the flags, or boundary, to stop the ball passing."

**Rudyard Kipling.**

"Mr. Kipling," writes a fellow passenger to Cape Town with him, "is a small, well knit man with a finely shaped head and a keen, happy face, full of that alertness which one would naturally anticipate from his writings. He has a thick brown mustache, very slightly touched with gray, and heavy dark eyebrows, and he always wears gold rimmed spectacles. He dresses comfortably and neatly and is guilty of none of those extravagant untidinesses usually indulged in by distinguished poets and artists. He did not display a great deal of energy on board. Once or twice he was seen playing rubber quoits with Mrs. Kipling. More often he was pacing the deck, talking or sitting quietly reading. Sometimes he wrote in the smoking room."

**A Pertinent Question.**

Senator Beveridge was describing a precocious little girl.

"She showed her precocity the other day," he said, "by a question that she asked me.

"I had said to her in the course of an examination in mental arithmetic:

"'How old would a person be who was born in 1861?'

"She smiled and asked:

"'Was the person a man or a woman?'"

**Spoiled His Trip.**

A man in central Kansas, according to the Kansas City Journal, had trouble with his wife and more trouble with his mother-in-law. The wife died. On the day of the funeral the undertaker started to put the man in the same hack with his mother-in-law. The man balked.

"I won't ride with her," said he.

"But you must," replied the undertaker. "The other hacks are all full."

"Well, if I must I will," said the man, "but it will take away all the pleasure of the trip."

**Happiness In Work.**

Ruskin says three things are necessary to happiness in work: A fitness for it, must not do too much of it and must have some consciousness of success.

A throat specialist says the best chest protector is worn on the sole of the foot.

## A B C'S IN JAMAICA.

**What Visitors Found Children Reciting on That Island.**

Away back in the heart of Jamaica we found a tiny schoolhouse, and, having a desire to visit a native school, we descended from our open carriage and rapped upon the door.

Just then the loud clanging of a deep toned bell in a tree near by almost startled us from the steps, and then out dashed a troop of children of all ages and colors of complexion from a light shade of tan to a dusky black.

It was recess, we were told by the pleasant faced colored man who proved to be the teacher and who showed us into the schoolroom and after much searching found a couple of empty chairs for us to sit upon. The room was partly filled with long benches, with a continuous line of desks in front of them. After a short time the boys and girls trooped in to take their accustomed seats, at the ringing of the great bell in the tree.

As there was no class which we desired to hear more than another the smallest children were told to repeat the alphabet. This they did while sitting on their hard seats.

Here is their alphabet word for word, as afterward procured from a native lawyer, for we could not understand fully every word as the children pronounced them:

A is fer Assanoo, look how him tan;
B tan fu Buckra, very bad man;
C is fu Pussy, name Maria;
D is fu Dupee, him eyes shine like fire;
E is fu Eel, him live in the ferry;
F tan fu Fiddle, him play so sweet and merry;
G tan fu Gubnor, him live in king house;
H tan for old Harbor, place poor, like church mouse;
I tan for Gentleman, very well bred;
J tan for John Crow, him have peel head;
K tan for Kalaloo, sweet when him biled;
L tan for Lizard, him have a green tail;
M tan for Monkey, look 'pon him face;
N tan for Nanna, him hat trim with lace;
O tan for Elephant, look on him snout;
P tan for Patock (owl), at night him come out;
Q tan for Quattie (piece of money), "beg Missis one, please;"
R tan for Ratta, him tiptoe 'pon cheese;
S tan for Snake, him lib in the grass;
T tan for Toadie, him forward and fast;
U tan for Uncle, please tell him "how-dy;"
V tan for Vervine, make very good tea;
W X Y, I really forget;
Z, old Zebdee mending his net.

This achievement caused the face of the teacher to shine gloriously.—New York Tribune.

**Opening the Simplon Tunnel.**

On April 2 the first trains ran through the Simplon tunnel. Engineer Brandau, who had directed the work on the tunnel, took the train in from the Italian side and reached the iron door which had been erected to stop a flow of hot water and which still kept the two sections asunder. Presently the train from the Swiss end was heard beyond the door. By means of hammering the two parties communicated with each other, and in a few minutes the door was knocked down and the tunnel was open. Mr. Rosemund, the engineer in charge of the work on the Swiss side, shook hands with Mr. Brandau. Bands played the Swiss anthem and the Italian royal march. The Italian bishop embraced the Swiss bishop, who then preached a short sermon and asked God's blessing on the tunnel and all the human good will and good labor which it represents. This was a dramatic and devout inauguration of a great work in which the whole world is interested. The formal opening of the tunnel will not occur for some months.—Youth's Companion.

**An Aid to Matrimony.**

James Whitcomb Riley says that the most amusing "character" that ever came within his personal observation was a Squire Roberts of Lapeer, Mich. Although the squire was, according to the letter heads on his stationery, a justice of the peace, he made additional claims to fame that he advertised himself as "the original and only exclusively matrimonial Gretna Green magistrate." Also the busy squire announced on his stationery that his office was in the First National Bank building, "or wherever most convenient to swains," and he made the further assertion that "a fine line of high grade bridesmaids and groomsmen" were "constantly on hand to assist at the services." Mr. Riley adds that the following were also selections from the remarkable letter head circulated by Squire Roberts: "Marriages solemnized promptly, accurately and eloquently. Plain ceremony, legal fee. Elopements a specialty."

**Her Position Defined.**

"Are you opposed to marriage?" he asked.

"No," replied the lady who had received degrees from three colleges, "I do not object to marriage per se. It is merely the fact that one cannot get married without having a husband that one dislikes."—Chicago Record-Herald.

**Perfectly Obvious.**

"Why do you permit the attentions of Cholly Sapleh while Jack is in Europe?"

"What a simple question!"

"Oh, is it?"

"Sure. I permit Cholly's attentions while Jack is in Europe because Jack is in Europe."—Houston Post.

**Loyal to His Friends.**

John A. Sutter, on whose land gold was first discovered in California in 1848, was always loyal to his friends. "During the winter of 1852 Sacramento was a marsh, and drainage ditches had just been dug," says Thomas E. Farish's "Gold Hunters of California." "One evening Sutter and a friend had been indulging a little too freely in the cup, and they were taking a stroll before retiring for the night, when the friend inadvertently fell into one of the newly dug canals. 'I cannot pull you out,' said Sutter regretfully as he looked down at his less lucky friend, 'but I can come down and sit with you.' And he did."

**Sympathetic Ointment.**

An old time quack compounded his "sympathetic ointment" according to the following prescription: "Take mosse of a ded man's hed, two onc.; man's greace, one onc.; mummia, man's blood, of each half an onc.; linseed oyle, twenty-two onc.; oyle of roses, bolearminick, of each an onc. Bet them together in a mortar till it be fine; keke an oyntment; keep it in a box." Then all the sick person needed was the weapon with which a man had been stricken. This he anointed with the ointment, pressed to the wound and was well again, or should have been.

**Dying of Famine**

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1 a bottle. Trial bottle free.

Miss Mary DaCosta departed yesterday for Ocala, where she will be the guest of friends for the next few days. The numerous friends of this popular young lady wish her a pleasant visit, as will no doubt be the case.

There will be prayermeeting at Kavanaugh Methodist Church this (Wednesday) evening, beginning at 7:45 o'clock. The service will be lead by Rev. W. J. Carpenter. The public is cordially invited to attend.

Dr. J. C. Wright, district manager, and B. B. Hopson, division manager, of the Mutual Life Industrial Association of Georgia, are in the city, and yesterday made The Sun an agreeable call. These gentlemen are here for the purpose of organizing a lodge.

J. A. Maultsby of Campville, manager of the Campville Brick Company, one of the largest and most modern plants of the kind in the State, was a business visitor to Gainesville yesterday. Mr. Maultsby has also mercantile interests in Gainesville. He is one of the leading business men of the county.

Joseph Lynn, messenger of the Southern Express Company, has returned from the West, where he has been for the past few months. While absent Mr. Lynn had the misfortune to fall under a train, the car wheels passing over his left hand and taking part of same. His friends will sympathize with him in this misfortune.

Angus Birdsey, formerly of Ocala, but now of Macon, Ga., who has been visiting the Misses DaCosta in this city for the past two or three days, has gone to his old home, where he expects to remain for a week or ten days. Mr. Birdsey is a graduate of East Florida Seminary. He has many friends here who were glad to greet him again.

The Ladies' Aid Society of the First Baptist Church, of which Mrs. J. E. Wainwright is president, held an interesting and very beneficial meeting at the church yesterday afternoon, and a good crowd was present. The society, among other things, took up and assisted several charity cases, the beneficiaries appreciating the work of the society.

At the meeting of Mount Vernon Lodge No. 20, Knights of Pythias, which was held at castle hall last night, the matter of the public library was discussed, and it was decided not to enter the race. The lodge appreciates those votes cast so far, but inasmuch as there are other societies competing which will receive more benefit from the library, the lodge decided not to enter the contest.

C. H. Russell of Tyler departed yesterday for West Florida, after spending a few days in this city. Mr. Russell is the labor agent of the Tyler Lumber Company, and his business here was recruiting hands. He secured a number who will be employed at that place. The Tyler Lumber Company propose to erect a fine mill of 20,000 feet capacity at Tyler, and now have a small mill cutting material for the larger building. The new mill, it is expected, will be completed in about ninety days. The Tyler Company will employ a large number of hands.
